OSHAN THEEKSHANA

Software Engineering Undergraduate | Aspiring Software Engineer

Sri Lanka | 078 621 4308 / 075 217 7814 | oshantheekshana63@gmail.com

github.com/oshan-lst | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Software engineering student with experience building Java desktop applications, responsive websites, and an AI-powered chatbot interface through academic and personal projects. Familiar with object-oriented programming, Java, Python, JavaScript, MySQL, and frontend development. Interested in backend development and cloud technologies, with a focus on strengthening practical software engineering skills.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Web: HTML5, CSS3, Bootstrap 5, responsive web design

Backend / Concepts: Spring Boot (foundational knowledge), object-oriented programming, debugging

Database: MySQL | **Tools:** Git, GitHub, VS Code, NetBeans | **Desktop UI:** Java Swing

PROJECTS

Water Level Monitoring & Control System | Java, Swing, OOP

- Built a Java GUI simulator with water-level visualization, alarm and splitter status controls, and simulated SMS transmission logs.

Max-Chat-Bot - AI Chat Assistant | HTML, CSS, JavaScript, Gemini API

- Developed a responsive AI chat interface with Gemini integration and light/dark theme support.

Student Management System | Java, Arrays

- Implemented student registration, record updates, batch management, marks processing, GPA calculation, and reporting in a console application.

Personal Developer Portfolio | HTML, CSS, JavaScript, Bootstrap 5

- Created and deployed a responsive portfolio showcasing software projects, interactive UI elements, and technical skills on Vercel.

EDUCATION

Institute of iCET | 2026

Software engineering studies (program / qualification not specified).

ADDITIONAL STRENGTHS

Problem solving | Analytical thinking | Self-directed learning | Debugging | Adaptability
